Maybe it's the thrill of the chase or the fun of figuring out the solution before the detective does that makes mysteries so popular. But most of us have a favorite. Well maybe. Ritch and Byron are having a Murder Mystery Movie/Game night.

The party will be at Ritch and Byron's home in Long Beach. We'll start with a pot-luck dinner and then we'll watch a couple of movies. So, bring a favorite dish to feed four people and your favorite mystery movie.

Or maybe you'd rather play a game – Ritch has the new Harry Potter Clue game which has disappearing secret passages and sudden death. If you have a good mystery-based game that you like, bring it along.

We will vote to pick the two favorite movies from the ones that you bring. One movie will be shown in the media room and the other will be on the 100 inch screen in the patio area. After the party you're welcome to stay and visit around the fireplace in the media room. The party will end with the final reel of the movie or about 9:30.

Ritch and Byron live at 2301 Golden Avenue in Long Beach (90806). It's easy to find on Google Maps, MapQuest or your Thomas Guide, or just travel south on the 710 freeway and exit at Willow Street East. The first stop light after leaving the 710 is Golden. Turn right (south) and the house is about a half mile down the street on the right.
